# A WIDE INSPIRED SELECTION

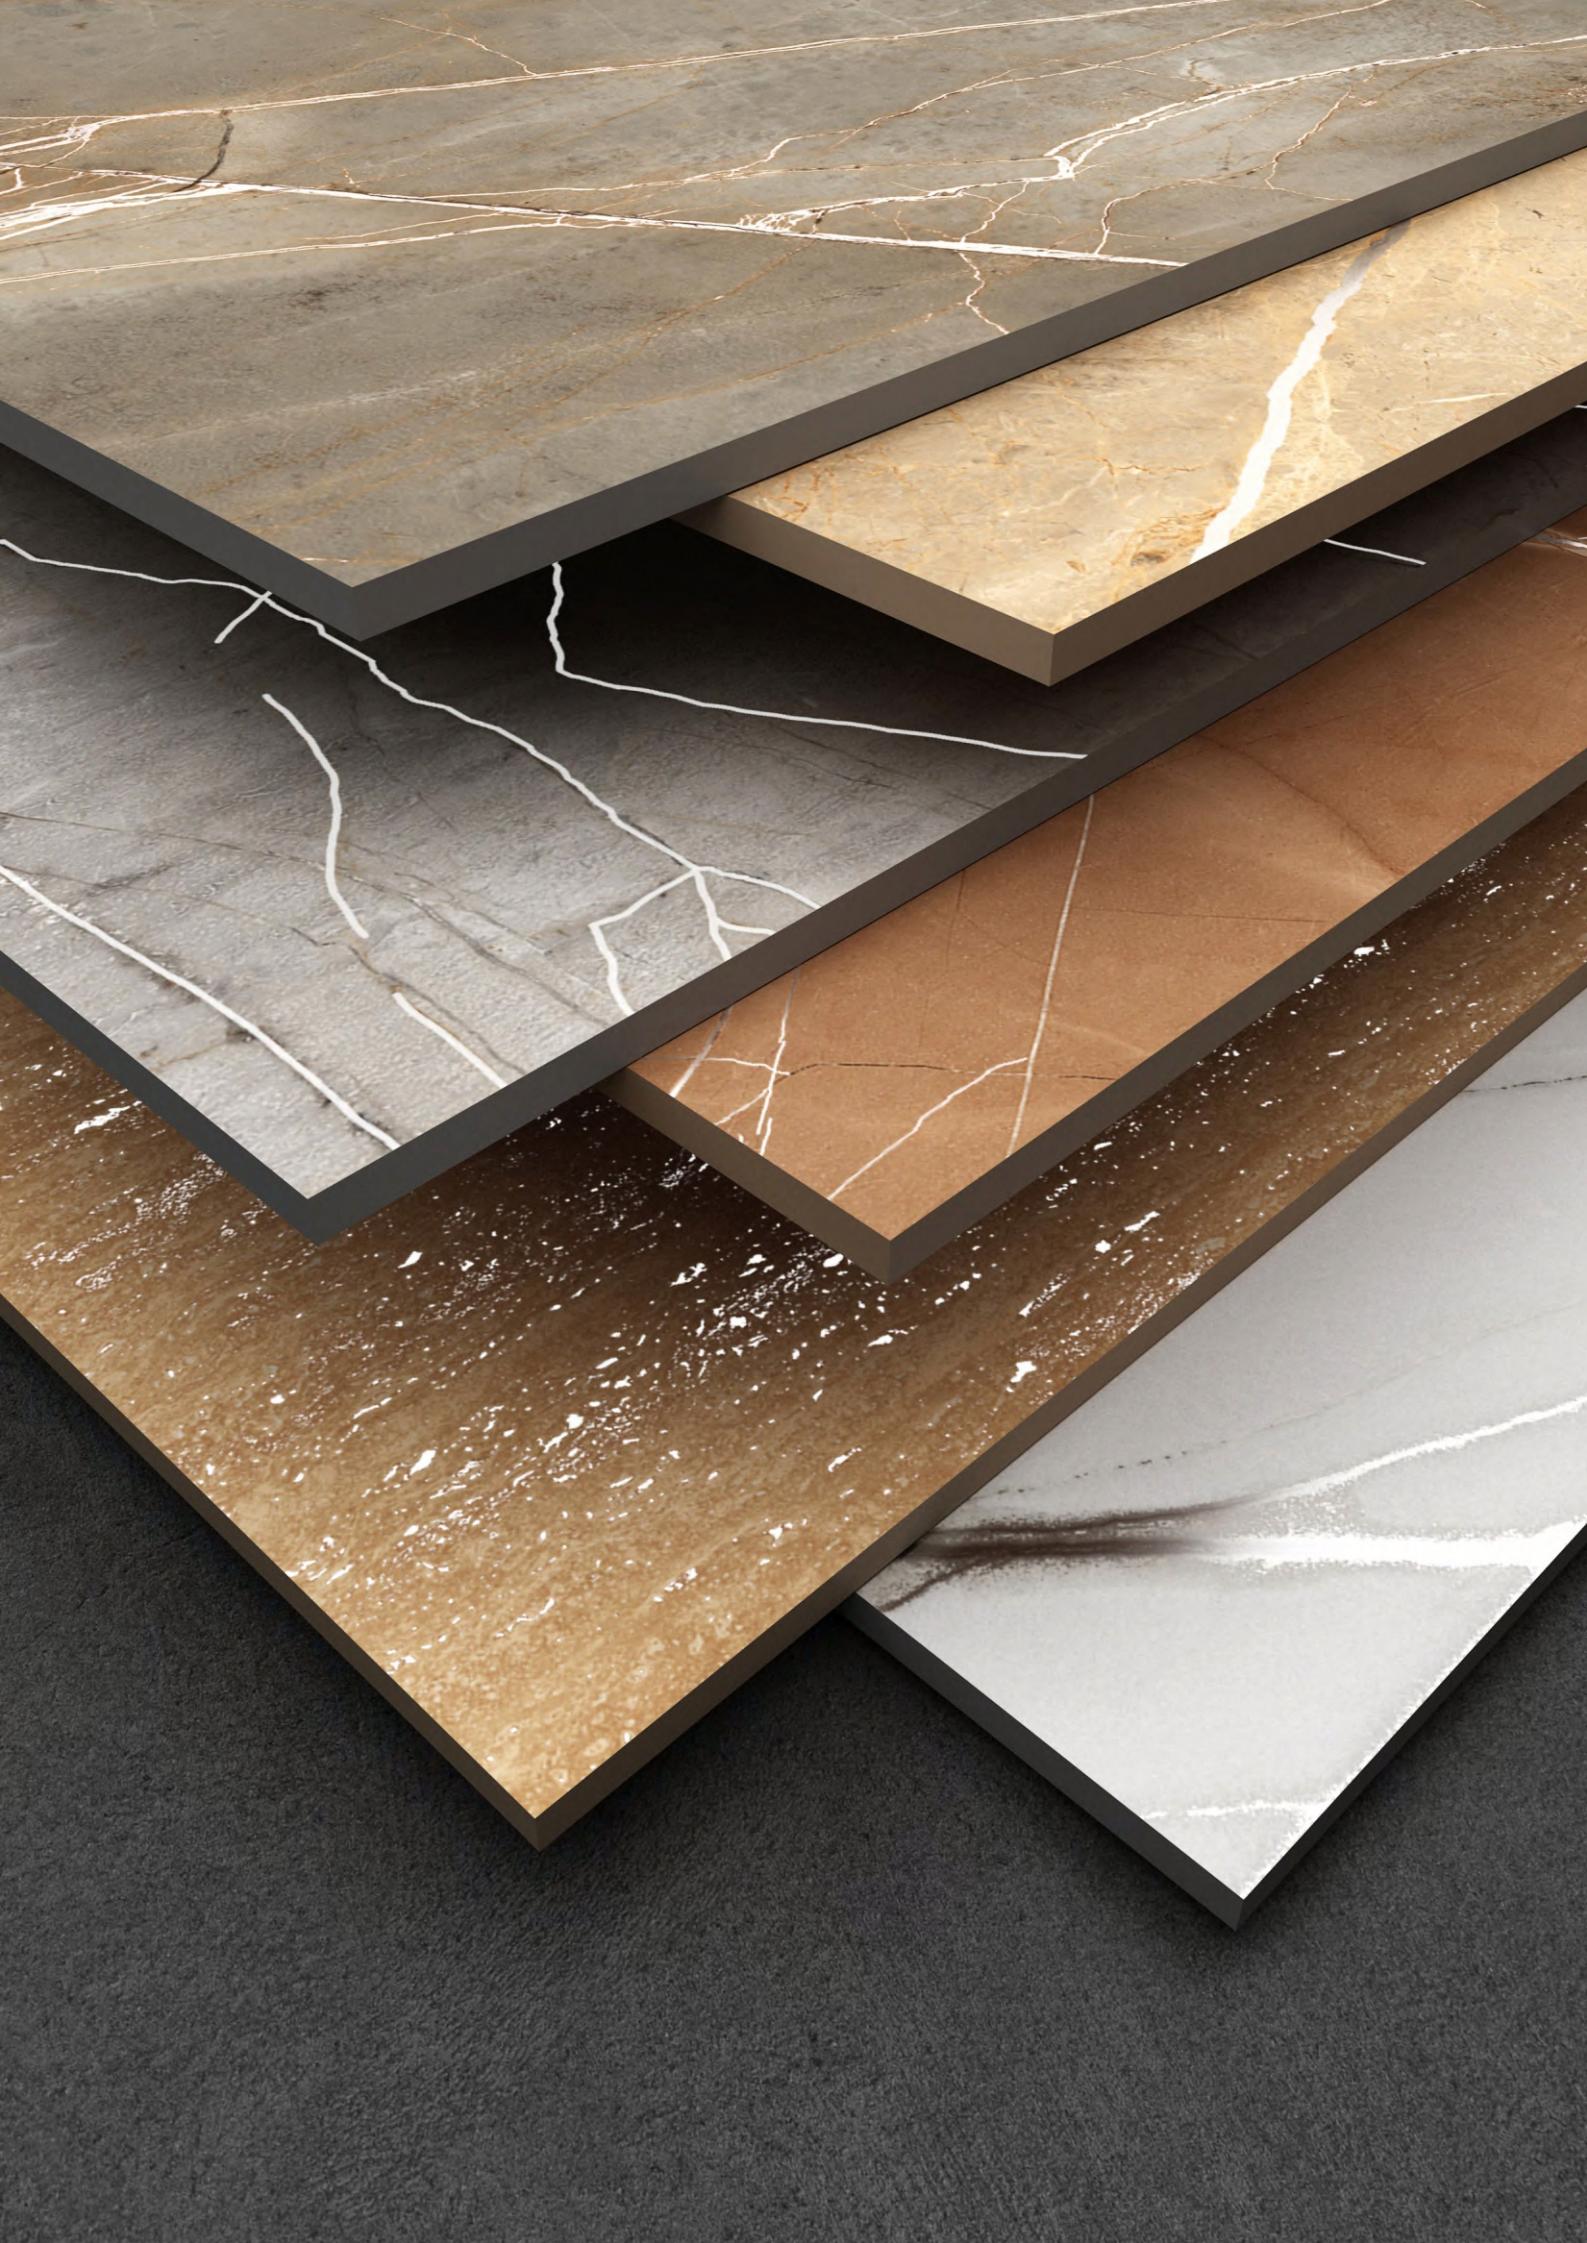

An accurate selection of fine marbles that epitomizes to meet the aesthetic and practical needs of every interior design project: the marbles of classical tradition have always been the protagonists of architecture in warm and cool tones, Italian marbles recognized all over the world for their purity, original colors reinterpreted and proposed in a new perspective.

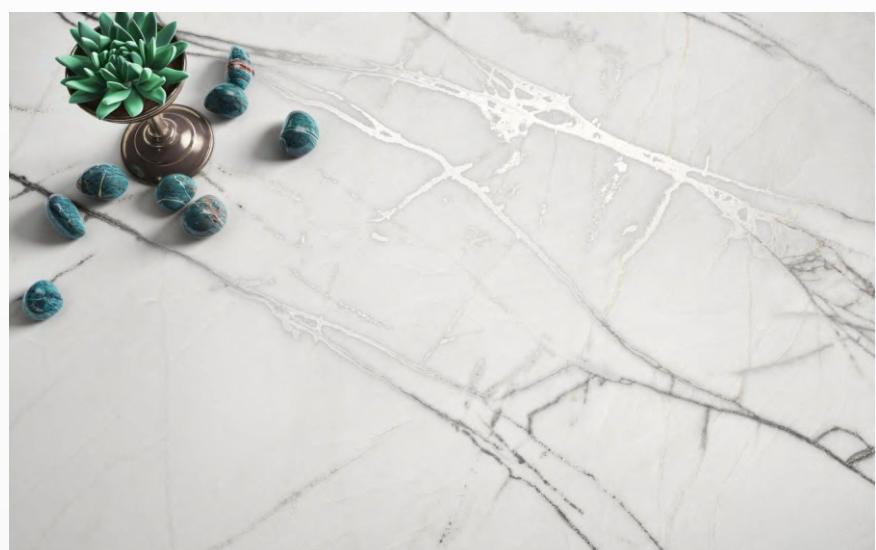

Carving-effect Stoneware designed to be used on any surface: floors, walls, and architectural volumes. The 60x120cm formats with a 09 mm thickness are perfect for seamlessly cladding walls, reducing the interruptions and horizontal joints, ensuring an aesthetic continuity between the floor and the wall

A wide range of decorations enriches and enhances Carving-Effect floor and wall tiles. Refined veins decorations and precious effects add value to every application for floors and walls, creating a contrast that brings out the beauty of the material and adds a unique dynamism to the space.

## MULTIPLE SANSATION

A STORY THAT ADDS NEW CHAPTERS EVERY TIME. Hidden away in the varied, multi-faceted appeal of marble are stories from the past and present, pulsating with life. A fine line separates the artificial from the natural, when light spreads through and leaves its mark on surfaces strongly bonded with the living styles of the future.

The inspiration comes from Italian Living origin: the distinctive Marble and the deep Fusion Effects, both crossed through by white veins and with a small-medium grain.

The other colors start out from black, gradually shifting through dark and light grey to white. The subtle texture and veins, tempered with a very light white, reminiscent of the night sky in black, give the product a smooth, extremely sophisticated appearance.
